Why We Are Here

STATE OF NEW JERSEY
BOARD OF PUBLIC UTILITIES

Shop for Energy Suppliers

Under New Jersey's energy deregulation law, the supply portion of your electric or natural gas bill is separate from the delivery portion. With the supply portion open to competition, customers can shop around for the best price on their energy supplies. Their electric and natural gas distribution utilities will still deliver those supplies through their wires and pipes – and respond to emergencies, should they arise – regardless of where those supplies are purchased. Purchasing your energy supplies from a company other than your electric or gas utility is purely an economic decision; it has no impact on the reliability or safety of your service.

Because of **energy deregulation**, you now have the ability to choose the supplier on your electric bill.

JERSEY ENERGY GROUP, LLC

Experience

Jersey Energy Group (JEG) is an energy solutions company that specializes in Residential Aggregation. JEG has completed residential GEA programs with 41 communities in Illinois, resulting in savings of 15-24 % versus the current local utility rate.

In New Jersey , JEG has been selected by:

Allamuchy Township

Cliffside Park Borough

Gloucester County

Mine Hill Township

Roselle Borough

Springfield Township

Woolwich Township

Clayton Borough

Deptford Township

Mantua Township

National Park Borough

Somerset County

Woodbury Heights Borough

JEG is in full compliance with all regulatory and state laws for local unit procurement, including approval from the New Jersey Department of Community Affairs.

ENERGY GROUP, LLC

Your Electric Bill

- Your electric bill has two key components.
- There is a charge for "**Delivery**" and for "**Supply**"
- The Supplier is only responsible for electricity generation.
- The Delivery charge is from your local utility for the maintenance of power lines, distribution, and transmission. The local utility is also responsible for power outages.

What Is Aggregation?

- **Aggregation** means making the switch together as a community! This results in an even lower electricity rate than when you switch alone. Aggregation is bulk-purchasing.

- Under the law, a municipality can establish a community aggregation program by passing an ordinance.

JERSEY
ENERGY GROUP, LLC

What Changes?

- ACE will still operate the service and distribution centers, and maintain the lines running to homes and businesses just like they always do. No one's job is impacted.
- ACE will still service and repair lines during an outage.
- Residents will continue to call ACE when they have problems with their service.
- Residents will still receive **ONE** bill every month, it will just be lower.

New NextEra Energy electric supply charges	**$98.81**
Total amount due by Nov 24, 2013	**$98.81**

JERSEY
ENERGY GROUP, LLC

What Jersey Energy Group Does

- JEG acts as the consultant. We oversee and advise on the aggregation process from start to finish.
- We work with the town and with the Third Party Suppliers by running a bidding process where these Suppliers bid on the town's energy load.
- Our extensive experience in residential aggregation has made us both effective and efficient.

JERSEY
ENERGY GROUP, LLC

Community Program

- Residents may **OPT OUT** of the program for any reason, without any penalty. There is a 30-day window to OPT OUT prior to the change. A letter will be mailed to you where you can make your decision. Remember that JEG allows you to OPT OUT whenever you want even after the 30-day window.

- Small Businesses may **OPT IN** to the program so that they too can see savings on their electric bills. There is a 30-day window to OPT IN prior to the change. JEG allows small businesses to OPT IN whenever they would like after the 30-day window.

- Residents who have negotiated their own electric savings by using a different supplier will not be included in the program, unless they want to join.

JERSEY
ENERGY GROUP, LLC

Consumer Protections

- No termination fees for those who wish to exit the aggregation at any time during the duration of the negotiated contract with the Third Party Supplier.
- Customers will be able to leave at any time to either go back to the utility or enter into their own personal contract with another provider.
- Residents will be able to join the aggregation for the same original negotiated price at any point during the duration of the contract at no additional cost.

JERSEY
ENERGY GROUP, LLC

Consumer Protections

- JEG seeks a **Price Match Guarantee** in the supply contract. This clause states that if, for whatever reason, the local utility rate falls below the aggregation rate at any time during the contract, the supplier has the obligation to either match the utility's price, or seamlessly switch all accounts back to the local utility by their next meter read date.

- The **Price Match Guarantee** ensures there is never a situation where a resident is paying more for their energy through the aggregation than he or she would with their local utility.

- In the event a Price Match cannot be negotiated at favorable price, then JEG would recommend a 12 month term contract that is aligned with when the LDC sets its price for the year.

JERSEY
ENERGY GROUP, LLC

Risk Management

- JEG's knowledge of the energy market and exhaustive due diligence ensures that residents enjoy savings from a reliable Third Party Supplier.

- JEG grades each and every bidding Third Party Supplier on the following criteria: credit rating, financial stability, market cap, customer service and back office capabilities and track record, and overall capabilities of facilitating the process for residents.

JERSEY
ENERGY GROUP, LLC

Public Education

- JEG implements a proven communications plan to thoroughly educate residents and small business owners.

- In Illinois, aggregations had to be voted on to take effect. JEG successfully passed the referendum in 44 out of 47 elections (92% success rate).In the state, typical opt-out rates were around 10% or higher. Our aggregations achieved a 5.6% opt-out rate.

- JEG achieves this complete education through participating in town hall meetings, attending local group meetings, and publicizing aggregation and its benefits through local newspapers and direct mail. We want to make sure you completely understand!
